

WATCH OUT FOR COUNTERFEITS OF OUR JOINT SHEETS (TOMBO NO. 1995) IN INDONESIA

In recent years, multiple counterfeits (imitations) of our joint sheets (TOMBO No.1995) have been found in Indonesia. The figures below show our (genuine) product and an example of counterfeit product.

Our (genuine) product

Example of counterfeit product

Our (genuine) products meet our quality control standards and do not contain any asbestos, which is classified as a hazardous material. In addition to the poor quality of the counterfeit products, our composition analysis has shown that some of them are likely to contain asbestos. Additionally, as opposed to our products which are printed with "TOMBO NA", the example(s) of the counterfeit products were printed with "TOMBO NAA" (an extra A).

Customers (especially those in Indonesia) are requested to make sure they purchase our products through legal channels to avoid suffering damage from counterfeit products. We are not responsible for defects or damage caused by counterfeit products.

We are in the process of taking legal measures against counterfeit products from the viewpoint of preventing damage to our customers, and we ask for your understanding and cooperation.

If you find a product that seems suspicious, please contact us via any of the methods below.
